

Tarnovell Bioscience Group

HR and Payroll Consolidation: Closeout for Firms A to F

Closeout memo

Tarnovell Bioscience Group

Report no. TG-HO-HR-2025-004

Date: 18 December 2025

1 Purpose

This memo closes the HR and payroll consolidation workstream for firms A to F. It records what was completed, what was handed over and where responsibility now sits. It is written for the steering group and for the firm HR leads, who will be asked to confirm the handover in January.

The workstream is complete for the six firms named. Payroll onboarding for the pending acquisition has not started and is not covered by this memo.

2 What was completed

The A to F employee directories have been reconciled for consolidation. Local source records remain preserved, and payroll ownership and handover responsibilities are recorded below.

Table 1 Directory and payroll status by firm

Firm	Directory	Payroll extract	Status
A Vellacombe	Moved to group HR	Reconciled for handover	Complete
B Brindlewythe	Moved to group HR	Reconciled for handover	Complete
C Merrivoss	Moved to group HR	Reconciled for handover	Complete
D Quenverell	Moved to group HR	Reconciled for handover	Complete
E Westravelle	Moved to group HR	Reconciled for handover	Complete
F Durnesswick	Moved to group HR	Reconciled for handover	Complete

Directory consolidation is complete for A to F. Archive ownership checks remain in the IT and SharePoint workstream and do not extend this closeout to future acquisitions.

3 Ownership after handover

From 1 January 2026 the group People Operations team owns the directory and the payroll interface. Firm HR leads continue to own local queries about their own staff and their own leave, and they approve changes to a record before it is sent to payroll.

- Starters and leavers: the firm HR lead submits, People Operations keys, and the firm HR lead approves before payroll runs.
- Pay changes: approved by the firm's finance contact and the Group Finance Director for any change above the threshold agreed in the handover.
 - Corrections after payroll has run go through People Operations and are logged against the period concerned.
- Local source directories remain preserved as archive records; leaver-folder ownership must be checked before migration.

4 Open items

Table 2 Open items at closeout

Item	Firm	Owner	Due
Confirm leaver folder owners on local shares	A to F	Judith Wilson with the firm HR leads	Tracked in the IT and SharePoint workstream

Archive ownership checks are separate from completed directory consolidation. Preserve local shares while those checks are carried out.

5 Scope boundary

The pending acquisition is outside this closeout. Its staff are not in the group directory, its payroll is not connected to the group system, and no one should assume that its records follow the same pattern as A to F.

The steering group will decide the onboarding approach for the pending firm once its archive has been through access and QA mapping. Until then no HR or payroll data from that firm should be loaded into any group system.

6 Sign-off

The HR leads for each firm are asked to confirm the handover by email to the People Operations team. Confirmation is not needed for items already closed in section 2.

Name	Role	Signature	Date
Nils Bergstrom	People Operations Manager	<u>N Bergstrom</u>	18 December 2025
Praneel Pal	Group HR Business Partner	<u>P Pal</u>	18 December 2025
